Thanks Ann-

I look forward to hearing from Rick regarding the request!

Best,

John

Subject: RE: Request for server assistance

Hi Ann-

I received this request from Terry Burton in EPA Region 6. He is asking if we (ORD) could host some server
capability to help with the San Jacinto Waste Pits site. Are you the right person to help out with this? If not, who
might be?

Some supporting info we would need for this request:

1) Can they access EPA servers from outside?
2) How much server space do they need ?

Thank you in advance for your help!

John

I forwarded your request to John Mckernan, the head of the Engineering TSC. You will hear from him shortly.

Subject: Fw: Request for server assistance

Hey Randy,
        Were you able to get any info on the server? The Corps person is asking, and I don't have an answer for the RPM. Let us know. Thanks.

Terry,

Any update on the server availability?

Thanks,

Gary Miller

Gary, thanks for checking into this! The server would need to have Intel's FORTRAN compiler installed on it.

Hi Gary,

      This note is to let you know that Randy Parker of ORD's Cincinnati office is looking into whether ORD could host some server capability to help with the San Jacinto Waste Pits site. Randy is also very knowledgeable on funding arrangements and agreements, so he would be able to provide great advice there. I've copied Randy so that he knows you are the RPM in question. He will get back with us when he gets an answer. Thanks.
